Licensed Certified Public Accountant-State of Georgia 1999

Personal

Tina is starting her seventh season of coaching with A5. She loves volleyball and believes it is the only true "team sport" where success depends on every player on the team, not just one individual making a good play. This is her third season with our 13U age group and she is looking forward to another great season of continued development in skills and knowledge for these young athletes.

Tina has never played competitive volleyball. She strictly plays for fun. She is an excellent teacher and loves the game. Her measurement of success as a coach is how many of her players return to play again the following year. While winning is important (otherwise we wouldn't keep score!); learning the game, being a good teammate, and having fun are all requirements for each of her players.

Her oldest daughter, Melanie, played for A5 and Walton High school and Tina is excited to have Melanie as her assistant coach this season. Her youngest daughter, McKenzie, is a competitive gymnast with Roswell Gymnastics. Tina is also a seasoned down-ref, line judge, communication mom, scorekeeper, and food mom at both the club level and for high school and middle school volleyball teams.
