Licensed Certified Public Accountant-State of Georgia 1999

## Personal

Tina is starting her twelfth season of coaching with A5. She loves volleyball and believes it is the only true "team sport" where success depends on every player on the team, not just one individual making a good play.

Tina has never played competitive volleyball. She strictly plays for fun. She is an excellent teacher and loves the game. Her measurement of success as a coach is how many of her players return to play again the following year. While winning is important (otherwise we wouldn't keep score!); learning the game, being a good teammate, and having fun are all requirements for each of her players!

Her oldest daughter, Melanie, played for A5 for 9 seasons and Walton High School. Her youngest daughter, McKenzie, was a competitive gymnast and is currently attending Georgia College. Tina is also a seasoned down-ref, line judge, communication mom, scorekeeper, and food mom at both the club level and for high school and middle school volleyball teams. Having been both a coach and a volleyball parent, she understands what is important for these young athletes and their families and looks forward to another amazing season!

After years of coaching with her daughter Melanie, it was time for Melanie to spread her wings and this season Tina is excited to have one of her former players joining her this season as her assistant coach!
